

Have you saved your city today?

VICTOR STANLEY RELAY™

STREET LEVEL SENSING™ & WASTE CONTROL SERVICE

Heroes come in all forms, including landscape architects. When you design public spaces with Relay sensor technology, you're saving much more than waste management costs. Because along with measuring receptacle fill levels for more efficient collection, Relay also collects street-level data that can help cut CO₂ emissions, improve public health and bring environmental equity to all parts of the city. You're more than a designer. Just like Victor Stanley is more than an outdoor furniture manufacturer. With actionable data from every street corner,™ there's no limit to what you can do for your city.
