STREET SENTRY™ BOLLARDS

STREET SENTRY™

BOLLARDS

Our Street Sentry™ bollards define pedestrian areas, unobtrusively preventing access by vehicles while allowing the movement of people, small delivery carts, wheelchairs, etc. Our bollards are an attractive, pragmatic addition to any project. They are available in a variety of heights, top treatments and indented band widths, with in-ground and surface mounting options. Reveals are machined recesses that accommodate decals and reflective graphics, expanding the utility of bollards in every setting. Reveal bollard decals, such as pedestrian symbols or reflective stripes, are produced in-house.

LENS BOLLARD

3, 4 or 5 ft (0.9, 1.2 or 1.5 m) heights. Tubular steel.
Surface mount. Standard decal package for reveals.

Stainless-steel finished bollards are imported. Unfinished Street Sentry lens and wedge bollards are imported, finishing is done at our Maryland facilities. See product specifications for further details. Our TGIC powder-coating averages 8-10 mils (200-250 microns) thick and is applied in-house to ensure the highest level of quality. Offered in 15 standard, satin and metallic colors, plus a full range of RAL colors with available color matching. Additional cost may apply.

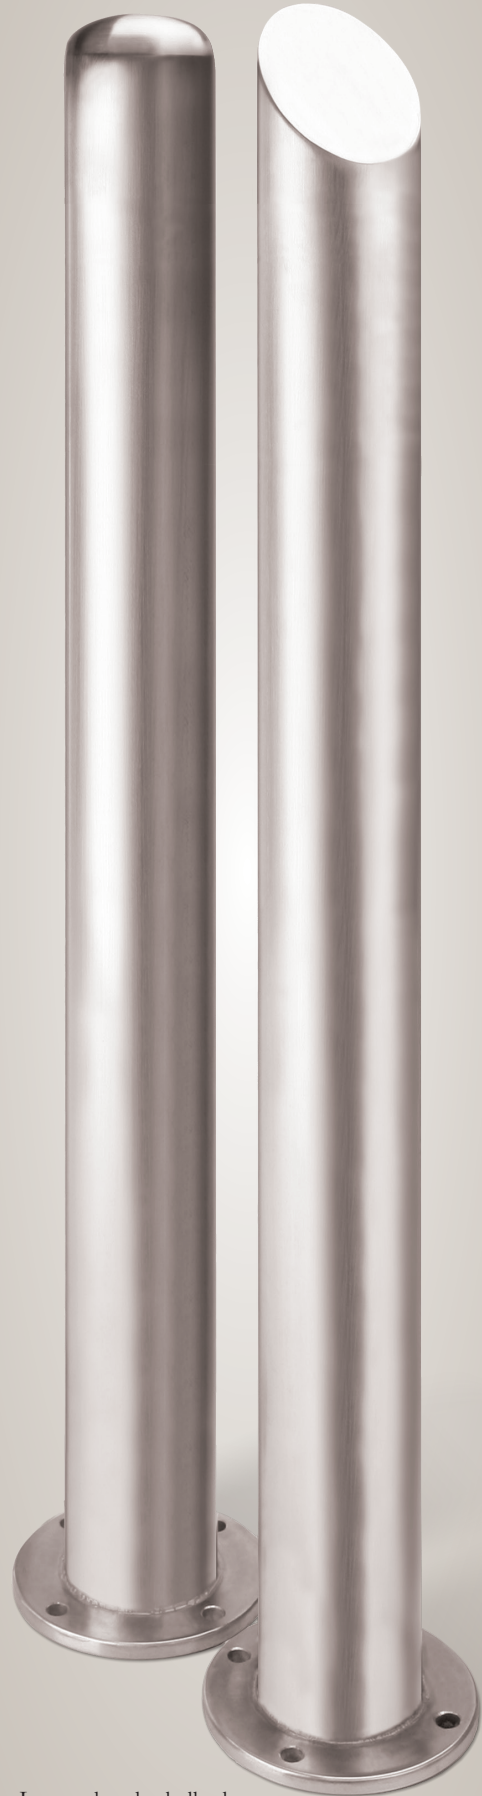

CUSTOM REVEAL DECALS

Standard and custom decals are available for bollards. Decals are ideal for advertising, pedestrian crossing markers, handicap accessibility markers, or other traffic control signage.

REFLECTIVE VINYL DECALS

Available exclusively for Street Sentry™ bollards with reveals, we offer white, reflective outdoor premium grade pressure sensitive vinyl decals. Our reflective material has a typical coefficient of retro reflection of 100 candelas. Custom graphics can be digitally printed onto the reflective vinyl. All vinyl is laminated with medium gloss, graffiti resistant film providing UV protection and prolonging the life of the graphics.
