EDUCATION SESSION

COMPLETING STREETS FOR BETTER COMMUNITIES

Credits: 1 PDH – HSW

In-class PowerPoint presentation teaches why the street is an important part of our social and transportation structures.

Victor Stanley education sessions are available throughout the United States. Request a session for your local area using our course request at www.victorstanley.com

Learning Objectives: Develop an understanding of the “Street” as Public Realm and how it has changed over the last century | Understand the goals of transportation engineering and the recent changes to federal highway design policy | Understand our present public health and ecological crises and how Complete Streets can impact it | Discussion of four major geographic demographics impacted by having or not having Complete Streets | Develop an understanding of local and national “Complete Streets Policies” | How Streets can become “More Complete” through landscape architecture

The logo and word marks “LA CES” and “Landscape Architecture Continuing Education System” are a collaboration of the American Society of Landscape Architects, Canadian Society of Landscape Architects, Council of Educators in Landscape Architecture, Council of Landscape Architectural Registration Boards, Landscape Architectural Accreditation Board, and the Landscape Architecture Foundation.
