 Bistro Seats with backs.

Girls' night out since 1962.

Celebrating over 60 years, Victor Stanley designs, engineers, and manufactures timeless site furnishings so you can bring communities to life. Our Steelsites™ bistro tables + seats are a modern take on the traditional small group table and seats, requiring minimal space while maximizing utility. Available in two heights and diameters with solid or perforated tabletops, you can dress them up in funky colors, or color match them to blend with the surroundings in your site.

VICTOR  STANLEY®

Create a timeless moment.®

Our Steelsites™ bistro tables and seats are a modern take on the traditional small group table and seats. Tables and seats are available in two heights and two diameters, with backless or backed seats, and optional integrated footrests.

Their round shape provides for ease of access whether standing or sitting, while the perforated tabletops and seats shed water. The two different height options allow for the creation of an inviting space that encourages lingering over a cup of coffee and pleasant conversation, or a standing space for a quick snack or meet-up, whichever best suits your needs.

These bistro style tables and seats require minimum space while still maximizing utility. Their inviting look and well-thought-out proportions can fit in any space — dress them up in a funky color for a little whimsy, or take advantage of our color matching options to blend them to their surroundings in your site.

BISTRO TABLES
